It is true, as is reported, that Mr. Bryan is making \$25000 a year in his endeavors to keep the prosperity of the country down until 1900, he has struck his gait and his injured feelings are soothed by a golden consideration.

MANDAMUS proceedings are to be begun at once against the county auditor of Aitkin, who is to be compelled to show cause why he should not place unoccupied railroad lands on the tax books as required by the Anderson law.

For the information of those who are pondering over the golden stores which are waited for Alaska, we will state that the Klondike gold fields, 4,395 miles from San Francisco, are being 2500 miles to the mouth of the Yukon, and up the river 1835 miles is located this new Eldorado.

The latest stove invented is one by which, by means of salt, a small quantity of ice and a patent chemical, it is proposed to produce an intense degree of cold. The stove can be cooled so that if a hand be placed upon it the skin will instantly be stripped, as in contrast with hot iron. It is claimed that with this stove the temperature of a room, in hottest weather, can be run down to any point desired.

This Moorhead News says that an era of "reform" seems to have struck the town. Saturday night saloons were closed at 11 o'clock and Sunday the doors were all closely barred, and beyond a few privileged ones, no one was admitted. Monday morning the chief constable of the saloon keepers notified them that all slot machines must be removed and placed out of sight and that no more shaking of dice goes and no more card games. The order was obeyed and the rattle of the dice and the shuffle of the cards are no longer heard and seen.

A CORRESPONDENT who has figured it out finds that John D. Rockefeller sleeps seven and one-half hours every night, retiring at 10:30 and rising at six. Every morning when he gets up he is \$17,705 richer than when he went to bed. He sits down to breakfast at eight o'clock and in that short half hour his wealth has grown \$1,045.50. On Sunday he goes to church, and in the two hours he is away from home his riches have grown \$4,166. His nightly amusement is playing the violin. Every evening when he picks up the instrument he is \$50,000 richer than he was when he laid it down the previous night.

Then and Now.

The following are extracts from C. F. McDonald's St. Cloud Times published at a time when McDonald wanted the reversion of the St. Cloud land office:

"To have acted honorably, he (W. B. Mitchell) should have resigned March 4th. Not so with him. He cared nothing for principle—it was the dollars he was after."—C. F. McDonald in the St. Cloud Times, August 12, 1885.

"We insist that if anyone is to receive one hundred lashes laid on his bare back with a whiplash whip, it be those rascally federal officers who are mean enough to hold on to positions from which the people voted they should retire. Let all such 'beasties' so that they cannot return."—C. F. McDonald in the St. Cloud Times, November 11, 1885.

The author of the above is the man who now claims that "Comrade McKinley" should keep HIM in office. It makes a great difference whose ox is gored.

Reunion of Survivors.

It has been determined to celebrate the twenty-fifth anniversary of the Blainey war in St. Paul by a reunion and supper at the rooms of the Commercial club, Monday evening, July 26. The expedition left St. Paul on the morning of July 25, 1872, but as has been the case with so many anniversaries in 1897 the 25th of July falls on Sunday, and the following day has been selected for the reunion. It is expected that nearly all of the survivors of the three companies of Minnesota's national guard, who twenty-five years ago promptly responded to Gov. Austin's midnight alarm to go to Brainerd to suppress an anticipated Indian outbreak, will be present at the reunion, and that the boys will have a good time.—Globe.

He's After Them.

The Cass County Pioneer, of Walker, appears to be after the county commissioners of that new county from the following:

The commissioners allowed P. H. McGarry's bill of \$500 for services, hotel bill and expenses on county organization. We do not need to make any more about this. The simple statement of the fact is all that is necessary in such cases.

As an addendum to this piece of history we would say that the payment of this bill will be stopped.

Don't miss the slaughter sale of clothing opposite the Columbian block. It is genuine. Come in and be convinced.

Bicyclists should refresh themselves with a glass of ice cream soda at McFadden Drug Co's.

N. E. A. Excursion to Milwaukee.

Teachers and their friends who contemplate attending the N. E. A. meeting at Milwaukee, next July, will do well to see that their tickets read via the Wisconsin Central Lines, from St. Paul and Minneapolis. Elegant day coaches, and the finest Sleeping and Dining Cars, combined with the ride to the train service, making the ride a pleasant one. Your nearest ticket agent can give you full information, and sell you tickets.

Found Dying Alone.

The Minneapolis Journal says that Thomas Libby, a well known hunter and fisherman of Brainerd, is in Minneapolis today looking for the relative of a man named Fred Simons, who was discovered by Libby and a party of fishermen in a hut on a small sheet of water known as Diamond lake about five miles from Duluth lake, in Aitkin county. Two weeks ago Libby and a party of young men from Duluth went on a fishing tour in Aitkin county. Libby knows that country pretty thoroughly, and he was acting as a guide. The fishing was very good, and the only difficulty experienced was in keeping the fish caught so that they could be got back to Duluth without spoiling. On Friday day, there was a case of fever in the camp, and Libby started in the direction of a cabin he knew had been in existence a couple of years ago, in the hope of getting some quinine. He arrived at the cabin to find it tenanted by a man about 45 years old, who was unconscious and in a fearfully emaciated condition. The sick man was lying on a bed made of logs. The cabin was supplied with a piece of bacon hanging on the wall and a portion of a sack of flour from which half-a-dozen field mice were just eating. There was no water in the shanty, and the pall that had contained water was fallen to pieces from the heat. The sick man lay flat on his back with his hands clasped over his head. The matter of repairing the East Brainerd bridge was left in the hands of the street committee with power to act.

The city clerk was instructed to request the Brainerd Telephone Exchange to put a telephone into the Third ward house house.

Ordinance No. 140, amending Ordinance No. 98, relating to streets, sidewalks and alleys, etc., was laid on the table until the next regular meeting.

The matter of investigating charges made for sidewalk repairs in front of the property of John Bubar on Front street was referred to the street committee to report at the next meeting.

The matter of repairing bridge on west side of river and also half north of the dam, was referred to the street committee with power to act.

Frank Bolin was granted permission to fence in trees in front of his residence and the council adjourned.

It is stated that Charles A. Towne has accepted a proposition to take \$50,000 and go to the Alaska gold fields and invest the money as he sees fit and to divide the profit at the end of a year with the men who put up the money. If this was a silver craze we might be led to think Charley would fly to the mining fields on such an offer.

John Engell on Monday, July 20th, on Sixth street opposite the Columbian block, opened a clothing and tailoring store and announced that the stock must be sold in 60 days. Be on the lookout for the greatest bargains ever known. From 30 to 50 per cent off on every thing in the store.

Reservoirs are Full.

For the first time since the reservoir system on the upper Mississippi was begun, its effectiveness as a means of supplying water to make the river navigable in the dry season bids fair to have a trial, says the Red Wing Republican. The reservoirs are full to overflowing and can hold no more. They have never before been in this condition. Their capacity is vast, and a succession of dry seasons, in which practically all their contents had to be used to maintain a navigable stage of water, prevented the accumulation of surplus stores. But the immense snow fall of last winter, followed by the continuous and heavy rains of the spring and summer, have restored the equilibrium and given the reservoirs all that they need. But the real test of their efficacy as aids to navigation will not come the present season, after all. The water in the river will not, it is probable, fall so low as to need reinforcement during this summer. The lakes and brooks and swamps at the headwaters of the Mississippi are all as full of water as the reservoirs. These furnish an ample natural supply of water for the coming months. It would be a great mistake to open the reservoirs and release the impounded waters at such a time. These should be kept until such time as they are needed and as their effect upon navigation can be measured. Let the river look after itself this year, and the reservoir supplies be jealously guarded. They will keep. Then, when we fall upon a season of drought, as we assuredly will when there is not water enough to float a steamer, open the gates. We will know in that event just what part the reservoirs play in the practical work of navigation; and if the experiment is successful, as there is reason to suppose that it will be, it will afford an unanswerable argument for the extension and completion of the system.

Regular Council Meeting.

The city council met in regular session on Monday evening with all members present excepting Ald. McMaster.

Minutes of the previous meeting were approved and the clerk's June financial statement was accepted.

Bills were audited and allowed as follows:

Board of Equalization.....\$42 00
Hall, dry and freight..... 6 10
Hugh Hiddle, postmaster..... 2 25
Jas. Wickham, repairs, etc..... 3 50
Brainerd Lumber Co..... 3 02
Geo. Hastings, labor..... 2 00

Report of the finance committee recommending that the bill of C. G. Moores for feeding stock in pound, \$18.75, be allowed was read. On motion, however, the bill was finally allowed at \$3.75, being at the rate of 35 cents per head per day.

Motion made and seconded that the appointment by Mayor Nevors of A. G. Brockway as patrolman be confirmed, with the following result: Ayes—Gardner and Smith. Nays—Adair, McGinn, Peterson, Wicklund, Kelleher and Crut. Ald. Halliday was excused from voting. The motion was lost.

Liquor licenses were granted to Nelson & Peterson, Chase & Holden, John O'Hare and Wm. Hoch, Jr.

The matter of repairing the East Brainerd bridge was left in the hands of the street committee with power to act.

The city clerk was instructed to request the Brainerd Telephone Exchange to put a telephone into the Third ward house house.

HER PICKED UP DINNERS.

A Unique Testimonial of the Graces of a Faithful Wife.

"Speaking of queer epitaphs," said the raconteur of the Smokers' club, "reminds me of a trip I took to the Ozark mountains with a party of friends. It was late in September when we found ourselves at Eureka Springs, Ark., that pretty little resort which lies between the east and west mountains in what may be called one of the loveliest valleys in the country. We went on an excursion every day, and one morning started out on horseback to visit the Four Mile cave, famous for its stalactites. After going a couple of miles into the cave we came to a little cemetery, below which ran the White river. It was such a wild, picturesque spot that I stood there while my friends went on to a blacksmith, and I did not find it altogether lonely, as other visitors were moving about in the distance and the old caretaker of the graves was within hailing. I passed the time waiting in reading the headstones on some rather pretentious mounds, and in this way came to an exceedingly odd and incongruous epitaph, which I transferred to paper with a rude copy of the design. How is this for a eulogy on a partner!"

"It was so early after the dreadful and untruthful literature of the other monuments that I must have showed my amusement in my face, for the old sexton drew near and said:

"Howdy! 'Spose yer readin' wot's on that there stun!"

"Why, yes," I said. "Did you know the woman?"

"Did I know Marthy? Why, Lor bless yer, everybody knew Marthy—least that wasn't her name till she was dead. Her name was Molly Jones, but them buntin' fellows all called her Marthy 'cause they said it was scripser. 'Spose yer don't hunt much! This be a great place for that, this be."

"And just then I heard the mellow call of a hunter's horn along the river bank below, answered by the cry of a pack of hounds. The old man picked up his ears. 'That, do yer hear that? That be George Perry an' his houn'. They be goin' to hev a fox hunt, I reckon. See 'em! That yer be right down there. Yer see, it was George Perry's father that really put that, this be."

"Who was this Marthy?" I asked.

"Wal, she waster to be the head cook at the old Perry House afore she married Bill Jones. Arter she got spliced they moved back inter the mountings an' kept a kind of a tavern there, but the huns waster stop at when they went out on trips. Ef they ketchin' anything, Molly waster cook it for 'em, an' ef they didn't they had to eat one of her picked up dinners. But, Lor bless yer, that wasn't no chore! She could make most anything taste good, an' she was a real good cook."

The Sharkey-Maher fight was won by the police in the seventh round.

If the Japanese are spoiling for a fight, perhaps they can be accommodated.

Owner, the postal dog, is now dead or on the third time. Three times and out for Owey.

Calling a man a peasant never did and never will close the eyes of the people to an unpleasant situation.

The town of Washington, Pa., has a widow's row, where there are nine females within a block and only one bachelor.

The treasury department figures indicate a decrease of one hundred thousand in the immigration of this year. Not a tear will be shed over this "loss."

It may be correct to speak of the Turk as the "black and white" stock, but unfortunately Greeks have reason to know that he is not so consumptive as he looks.

"Founder" Bradley has popularized Ashbury park to the extent that he is being hounded by lovers. Here Cupid will hold high carnival, and a generation of young men and maidens will rise up to call the name of Bradley blue.

Rev. William H. Noyes has resigned as a missionary in Japan of the American board, on the ground that he is unable to stand the rigors of the doctrines inculcated by the board. It was his avowed belief in probation after death that brought about the famous controversy over that question in the board some years ago.

St. Petersburg's population is 1,267,023, according to the Russian census of this spring; that of Moscow is 888,000; of Warsaw, 614,752; and of Odessa, 404,651. Out of a total Russian population of 129,211,000 there are 64,636,820 men. An unexpected discovery is that of an increase in the population of the new provinces in central Asia.

As bearing upon the present improved methods of gold mining, the statement in the annual report of one of the largest mines in Colorado which states that the organization of the company the average cost of producing \$1 worth of gold has been 37 cents, is interesting. The extent to which new methods can be applied to old mines even is just coming to be realized.

The welcome reception of the Harvard University crew's coach at the headquarters of the Yale oarsmen, and the visitation of the Harvard crew, as the Yale crew at their practice, may be regarded as the final blow to the system of spying upon the secret practice of crews matched for competition. This time-honored method of training has been so thoroughly and so strongly of professionalization that it is an adjunct of college sport.

The official Austrian crop estimates, according to Boerholm, are 34,000,000 to 35,000,000 metric hundred weights of wheat, against 28,000,000 in 1896; 12,000,000 metric hundred weights in 1896; 10,000,000 to 11,000,000 metric hundred weights in 1896. In favorable weather continues these estimates may be largely improved.

The best thing John Calliott, the Lafayette, Ind., can do now is to get out of the prophesying business with out delay. Mr. Calliott has been telling us for fifteen years that the end was coming at certain times, and every time he has disappointed a whole lot of people. John is said to be an excellent plasterer, and we would advise him to stick to his business hereafter and refrain from attempting to scare us to death.

The developments of modern warfare are not encouraging to skilfers. Hiding behind a tree will be useless in the new war, according to a surgeon who has taken part in the Balkan campaign. A bullet from a Mauser rifle goes through a large tree with ease. It also is said that a bullet often passes through the human body without discharging a combat, the wound of exit being only a hole in size that of entrance. The modern firearms of the Cubans are said to be far more destructive than the modern firearms of the Spanish troops when they were a person, they have not the ability to go through trees to get at their victims.

Mr. Andrew Carnegie's announcement that he is about to give away a million dollars more to the poor, has led the Boston Herald to say, in words which he heartily indorse, that his purpose shows "that he is still of the opinion that the best time for a man to spend his money in doing good is to his fellow men while he is yet alive." It is a glorious idea, and well worthy the imitation of his fellow-millionaires. The trouble is that rich men think they are never going to die, and that there's time enough to dispose of their money anyway.

The story goes that the sulphur mines now located near the Natches tract, Wash., about fifteen miles from Buckeye, the first discovery of sulphur, whose fire took hold of the rocks, which burned and created such a smell that he had to move to three miles to get away from the fumes.

It seems that the Citizens' Union of New York has a mascot in the shape of a six-toed Maltese cat, but it will take more than the mascot influence of the feline to secure the election of the union's candidate for mayor.

If Canada's proposed retaliation against this country for alien labor legislation will include the exclusion of the bank of Canada from the states for their health, there certainly will be no disposition on the part of the United States to complain.

Since the lawmakers of Illinois have passed a bill for an act to compel all persons doing business as horse owners to be competent, the latter ought to get together and see that hereafter all persons doing business as legislators shall also be competent.

The shah is luscious of speech; he is also a magnificent shot, and can shoot a hole through an oak leaf with his right hand. He goes on rough hunting trips and bags his game. He is neither a fool nor an imbecile and is a man of swift action.

Congressman Sullivan, of New Hampshire, is a member of the Salvation Army and has frequently been in their parades both at his home in Manchester and at Washington. His wife was formerly a Salvation Army lassie.

L. D. Davis, superintendent of the Indian school at Flandreau, S. D., arrived in the city from the Leech Lake Agency this morning having in charge thirteen Indian children, four girls and nine boys, who he is taking to the school at that place.

Miss Mayme Mitchell, of Brainerd, who is visiting Mrs. Blake, is a member of the Star quartet of that city, which makes a tour each year. Many who have heard Miss Mitchell sing have suggested that the quartet include this city in its tour, and it may do so this fall.—Fergus Falls Journal.

Brainerd is to have a new cornet band, the instruments for which arrived yesterday. The name of the organization is the Northern Pacific Band and Wm. Graham will be the instructor and leader. There are twenty-two members and the first meeting for instruction was held last evening at the band room over Mattson's store in Southeast Brainerd.

The little daughter of Mr. and Mrs. Howard Baker, aged sixteen months, came very near dying on Wednesday the result of drinking a quantity of sweetened water from a dish that contained fly paper. Medical assistance was called in time to save child's life although at one time it was thought she would not recover.

The crossing case which has been a bone of contention between the railroad company and the town board of Oak Iowa for some time has been amicably settled, the railroad people agreeing to put in the crossing at a point one mile west of Jonesville. The matter was taken up Wednesday at which time Division Supt. Blanchard and W. S. McClellan, local attorney for the road, and the Oak Iowa town board with their attorney, W. A. Fleming, went over the ground and made a personal inspection and at the close of the conference the company agreed to put the crossing in at the place selected by the board.

Some Serious Fires.

The Max Shapiro building at the corner of Sixth and Maple streets burned on Tuesday morning at 2 o'clock. The fire was first discovered by parties living in the vicinity of the building and an alarm was sent in and quickly responded to by the department but the blaze had gained such headway that it was impossible to arrest its progress and the attention of the firemen was directed toward saving the adjoining property with good success. When the fire was first discovered it was in the rear of the building in that part occupied by James Wickham as a blacksmith shop but before assistance arrived it had communicated to the wood working and wagon department of James Rhodes and also to the upper story which was used as a store room and painting department. So rapid was the work of the fire that absolutely nothing of value was saved, an empty tool chest belonging to Mr. Rhodes being the only thing removed from the building. Just how the fire occurred is a mystery although there is not much doubt in the minds of the public but that it was of an incendiary origin as on the night previous to the fire Alderman Adair noticed two men acting in a suspicious manner in that vicinity at a late hour and a half hour before the alarm was turned in Geo. W. Moody saw two men in that vicinity and their actions were such as to cause him to watch them for some time before he retired. There was an insurance of \$700 on the building and Mr. Wickham carried a policy of \$400 on his stock and tools and Mr. Rhodes \$300. Mr. Wickham is looking around for a favorable location and if he can find one to suit him at once commence the erection of a building of his own and Mr. Rhodes will probably locate with him. Both gentlemen were doing a good business and their customers and friends will be glad to learn that they will soon be in business again.

The residence of J. G. Smith at the corner of Fifth and Norwood street together with the contents was destroyed by fire on Tuesday night, the alarm being turned in about 12 o'clock. Mr. Smith's wife and daughter were absent from the city having been at Gull Lake for some days and the only occupants of the house was himself and his son. Mr. Smith was awakened by the smoke which nearly suffocated him and he had barely time to get out before the entire inside of the house was on fire, and his son, who was occupying a room in the second story, made his exit through a rear window. The entire building, inside and out, was wrapped in flames before the department arrived, and nothing was saved. Nothing accurate is known as to the origin of the fire. When Mr. Smith's son, James, retired he attempted to turn on the electric lights and as they did not work he lighted a lamp and left it burning for his father, who had not been feeling well, in case he needed it in the night and it is thought that possibly it originated from the lamp exploding. There was an insurance of \$500 on the building and \$300 on the furniture.

DIED.

Alma Johnson, the two months old child of Mrs. Hannah L. Johnson, died on Wednesday. The funeral occurred yesterday, Rev. Johnson officiating.

John Fox, aged 90 years, died of the infirmities of old age at the residence of his daughter, Mrs. R. D. Ransom, 221 Farrar street East Brainerd, on Wednesday, July 21. The remains were taken to Eau Claire, Wis., for burial yesterday, Mrs. Ransom accompanying them. Services were held at the house in East Brainerd Thursday forenoon.

Officer Fulton, of the police force, received the sad news yesterday of the death of his father, Robert M. Fulton, at Mars Hill, Maine, which occurred on Sunday from paralysis. He was 81 years of age.

Mrs. Thos. McMaster received news by telegraph of the death of her father, Thos. E. Hughes, at Pittsburgh, Pa., on Friday last.

Oliver Brousseau, Sr., aged 75, and one of the old settlers of Crow Wing county, died at his home at Crow Wing, Saturday. He came to Morrison county in 1858, and leaves a family of four grown up children all married and living in Morrison county except one who resides at Crow Wing.

Speaking of the death of Oliver Brousseau of this county the Little Falls Herald says:

Oliver Brousseau, Sr., died at the home of his oldest son, Oliver, near Long Lake, Crow Wing county, shortly before noon Saturday, July 17th, after a brief illness, aged 75 years. Mr. Brousseau was visiting with his son at the time of his death, having gone to Long Lake from Oak Ridge, where he has been living of late years, with his son Frank, about three weeks ago. Saturday morning he said he had passed a sleepless night, and after trying to sleep in an arm chair, returned to bed, where he was found by Mrs. Brousseau dying. Oliver Brousseau was a native of Canada and came to Morrison county in 1858. He lived on a farm north of Little Falls for many years. This farm he afterward traded for a farm in Oak Ridge, near Gravelly.

Mr. Brousseau leaves four sons and four daughters. He was thoroughly honest and in his long residence in the country made many and sincere friends. He was well liked by all who knew him. The funeral took place Monday morning from the Catholic church at Belle Prairie and the remains were laid to rest in the cemetery near the church.

R. J. Rolfe came up from Brainerd Monday evening and is now working in Wm. E. Loeys' lunch room. Bob held the same job here several years ago but has lately been working at Carlton and Brainerd.—Staples World.

The Nashville Students and Wright's Colored Comedy Company.

The above named excellent colored attraction will arrive here on Saturday, July 24th, in their own, special car, and will appear at Sleeper opera house Saturday night. James Crosby and Gordon Collins are without doubt great colored comedians. Ida Lee Wright is the only colored lady serenade dancer in the country. The singing is very fine, both male and female voices. Harry and Edna Gilman, sketch artists, John Stewart, sleazie wire performer, and Madam Anna Stewart, queen of song, are all very good. In fact the performers are all artists in their respective lines.

Prices have been reduced to mid-summer rates, only 35 and 50 cents for reserved seats, 25 cents for general admission and 25 cents for gallery. Reserved seat sale now open at Johnson's Pharmacy, formerly known as E. F. Atwood's drug store.

The following from the Tribune of Jefferson City, Mo., is a sample of what the newspapers say about this attraction:

"The Nashville Students closed their engagement of two nights at Lohman's opera house last night. This is one of the best companies of the kind that ever came to Jefferson City. Music is the forte of the company, and the two performances were full of it, and of a most pleasing and tuneful kind. The company also carries a splendid band and orchestra."

Look out for the great band parade at noon.

Pitcher Phlye Injured.

Billy Phlye the St. Paul base ball player, and who is well known in Brainerd, was badly injured while running bases on Sunday last. The Press says:

"Dr. Nippert, who was called to attend Phlye after his injury, says that the pitcher suffered a very severe dislocation of the foot and that some of the ligaments in the ankle are torn. A plaster cast was put on the foot as Phlye could be removed to the International hotel. It is Dr. Nippert's opinion that it will be at least two months before a recovery may be expected, which, of course, means that Phlye will not play again this season."

POINTON'S NEWS ITEMS.

The new school board at Eagle Lake is a dandy.

Several parties from Brainerd spent Sunday at Eagle Lake.

Virgo Whitcomb, of Motley is visiting his uncle, J. W. Billings, for a few days.

John Percy and Mr. Warner, of Brainerd, Sundayed at the Barber cottage.

Sy. Ferrand, of Belle Prairie, is stopping at J. W. Billings' for a short time rusticiating.

The berry crop is rather limited here this season. Few raspberries and no blueberries to speak of.

The picnic party to Clearwater lake on Tuesday turned out to be a moist affair as it rained most of the day.

Miss Martha Banton, of Milwaukee, Wis., a niece of J. W. Billings, is making her uncle a visit and will remain some time.

The settlers in this part of the county are beginning to look out for their hay. Short crop and knee deep in water is their cry.

Mr. E. K. Clymer, who has been stopping at the Bush farm for an outing, returned to St. Paul on Wednesday. He leaves his family to follow in two or three weeks.

The district school meeting at the Pointon school house resulted in the election of John Anderson in the place of Wm. Rasthange and at the Eagle Lake school the old board was retired and Sam. Hastings was elected clerk, Ed. Garlinghouse treasurer, and D. Colwat director.

Found Dying Alone.

The Minneapolis Journal says that

Thomas Libby, a well known hunter

and fisherman of Brainerd, was

discovered by Fred Simons, who

was discovered by Libby and a

party of fishermen in a hut on a small

sheet of water known as Diamond lake

about five miles from Deane lake, in

Aitkin county. Two weeks ago Libby

and a party of young men from Du-

luth went on a fishing trip in Aitkin

county. Libby knew that country

pretty thoroughly and he was acting

as a guide. The fishing was very

good, and the only difficulty experi-

enced was in keeping the fish caught so

that they could be got back to Duluth

without spoiling. On Friday last

there was a case of fever in the camp,

and Libby started in the direction of

a cabin he knew had been in existence

a couple of years ago, in the hope of

getting some quinine. He arrived at

the cabin to find it tenanted by a man

about 45 years old, who was uncon-

scious and in a fearfully emaciated

condition. The sick man could be

seen on a bed made of boughs. The

only supplies visible in the cabin consist-

ed of a piece of bacon hanging on the

wall and a portion of a sack of flour

from which half-a-dozen field mice

were eating. Libby promptly secured

water from a neighboring spring, made

a new litter of leaves for the sick

man, and rendered him every

service possible under the circumstances.

Then he started back to the fishing

camp and brought the remainder

of the party up. They stayed with

Simons all night while Libby went

to town for a doctor. The patient

was fed whiskey and water at

intervals of a few minutes during the

absence of Libby, who returned with

Dr. W. E. Segall of Montreal, who

was just starting out with a party for

some bass fishing on his own account.

The case was diagnosed as typhus,

due to drinking a particularly filthy

article of water from the stream that

ran by Simons' camp. The stream,

Libby says, is filled with decayed

timber of all sorts, and its color is that

of old tan. Simons had been drink-

ing this water ever since he went into

camp, nearly a month ago. He re-

covered consciousness after a few hours

nursing and stated that his home was

on Riverside avenue, in Minneapolis,

but he couldn't remember the number,

as he had moved there only a few days

before leaving the city. He has a wife

and five children living here.

Conductor Corrigan's Injuries.

Conductor S. Corrigan, of the Fer-

gus branch train, was injured at

Wadena Junction last Thursday evening.

He was looking out of the side door

of the combination car to see that

everything about the train was all

right, when the handhold on the side

of the car pulled out and he fell to

the ground. He was not missed by

the train crew until they reached Wad-

ena, and the train was backed up

until they found him beside the track

at the Junction and still unconscious.

He was brought to Wadena and Dr.

Babcock attended him, accompanying

him to Brainerd on the special. He

was badly bruised about the head, and

it was over a day before he fully re-

gained consciousness. At present he

is doing well, although unable to be

up, and he still suffers with severe

pains in the neck. W. J. Flynn, J.

H. O'Brien and other members of

the O. R. C. have been down at differ-

Out of a total Russian population of 129,211,000 there are 64,626,820 men. An unexpected discovery is that of an increase in the population of the new provinces in central Asia.

As bearing upon the present improved methods of gold mining the report in the annual report of one of the largest miners in Colorado showing that since the organization of the company the average cost of producing \$1 worth of gold has been 37 cents, is interesting. The best thing John Callcott, the colored end-of-the-world prophet of the late '80s, can do now is to go out of the prophesying business without delay. Mr. Callcott has been telling us for fifteen years that the end was coming at certain times, and every time he has disappointed a whole lot of people. John is said to be an excellent plasterer, and we would advise him to stick to his business hereafter and refrain from attempting to scare us to death.

The developments of modern warfare are not encouraging to soldiers. Hiding behind a tree will be useless in the next war, according to a new book which has been taking notes in case the bullet from a Mauser rifle goes through a large tree with ease. It is also said that a bullet often passes through the human body without doing any harm, the wound of exit not exceeding in size that of entrance. The other fears of the Cubans are said to be more destructive than the modern uses of the Springfield rifle, which can strike a person, but they have not the ability to bore through trees to get at their victims.

Mr. Andrew Carnegie's announcement that he is about to give away a million dollars more to good objects, leads the Boston Herald to say in words which we heartily endorse, that his purpose shows "that he is still of the opinion that the best time for a rich man to spend his money in doing good to his fellow men is while he is yet alive." It is a glorious idea, and the only worthy thing a new million-dollar-millionaire. The trouble is that rich men think they are never going to die, and that there's time enough to dispose of their money anyway.

PEARY GETS AWAY

ARCTIC EXPLORER AND PARTY SAIL FOR THE FAR NORTH.

The Object of the Expedition Is to Establish a Settlement in Northern Greenland to Be Used as a Base of Supplies for Lieut. Peary's Expedition in Search of the North Pole in 1898—Many Scientists in the Party.

Boston, July 20.—The steam sailing bark Hope, with Lieut. Peary and his party, sailed for the north today. The expedition is to establish a settlement on a route at a remote northern point in Greenland, which shall be used as a base of supplies for an expedition in search of the North Pole, under Lieut. Peary in 1898. To this end, a party of Esquimaux will be established at the new settlement, and during the next year, be engaged in making preparations for Lieut. Peary's expedition.

The party, which consists of thirty-four men, including Lieut. Peary, and his family, and their servants, and the crew, Mr. and Mrs. H. J. Lee of Meriden, Conn.; Robert Stein, of the United States geological survey; Albert Gertel, the famous Arctic scenic artist; J. D. Fitzgerald, of Falls Church, Va.; taxidermist, and others, will accompany the expedition.

Some Serious Fires.

The Max Shapiro building at the corner of Sixth and Maple streets burned on Tuesday morning at 2 o'clock. The fire was first discovered by parties living in the vicinity of the building and an alarm was sent in and quickly responded to by the department but the blaze had gained such headway that it was impossible to arrest its progress and the attention of the firemen was directed toward saving the adjoining property with good success. When the fire was first discovered it was in the rear of the building in that part occupied by James Wickham as a blacksmith shop but before assistance arrived it had communicated to the wood working and wagon department of James Rhodes and also to the upper story which was used as a store room and painting department. So rapid was the work of the fire that absolutely nothing of value was saved, an empty tool chest belonging to Mr. Rhodes being the only thing removed from the building. Just how the fire occurred is a mystery although there is not much doubt in the minds of the public but that it was of an incendiary origin as in the night previous to the fire Alderman Adair noticed two men acting in a suspicious manner in that vicinity at a late hour and a half hour before the alarm was turned in Geo. W. Moody saw two men in that vicinity and their actions were such as to cause him to watch them for some time before he retired. There was an insurance of \$700 on the building and Mr. Wickham carried a policy of \$400 on his stock and tools and Mr. Rhodes \$300. Mr. Wickham is looking around for a favorable location and if he can find one to suit he will at once commence the erection of a building of his own and Mr. Rhodes will probably locate with him. Both gentlemen were doing a good business and their customers and friends will be glad to learn that they will soon be in business again.

The residence of J. G. Smith at the corner of Fifth and Norwood street together with the contents was destroyed by fire on Tuesday night, the alarm being turned in about 12 o'clock. Mr. Smith's wife and daughter were absent from the city having been at Gull Lake for some days and the only occupants of the house was himself and his son. Mr. Smith was awakened by the smoke which nearly suffocated him and he had barely time to get out before the entire inside of the house was on fire, and his son, who was occupying a room in the second story, made his exit through a rear window. The entire building, inside and out, was wrapped in flames before the department arrived, and nothing was saved. Nothing accurate is known as to the origin of the fire. When Mr. Smith's son, James, retired he attempted to turn on the electric lights and as they did not work he lighted a lamp and left it burning for his father, who had not been feeling well, in case he needed it in the night and it is thought that possibly originated from the lamp exploding. There was an insurance of \$500 on the building and \$300 on the furniture.

DIED.

Alma Johnson, the two months old child of Mrs. Hannah L. Johnson, died on Wednesday. The funeral officiating yesterday, Rev. Johnson officiating.

John Foss, aged 90 years, died of the infirmities of old age at the residence of his daughter, Mrs. R. D. Ransom, 221 Farrar street East Brainerd, on Wednesday, July 21. The remains were taken to Eau Claire, Wis., for burial yesterday, Mrs. Ransom accompanying them. Services were held at the house in East Brainerd Thursday forenoon.

Officer Fulton, of the police force, received the sad news yesterday of the death of his father, Robert M. Fulton, at Mars Hill, Maine, which occurred on Sunday from paralysis. He was 81 years of age.

Mrs. Thos. McMaster received news by telegraph of the death of her father, Thos. E. Hughes, at Pittsburgh, Pa., on Friday last.

Oliver Brousseau, Sr., aged 75, and one of the old settlers of Crow Wing county, died at his home at Crow Wing, Saturday. He came to Morrison county in 1858, and leaves a family of four grown up children all married and living in Morrison county except one son who resides at Crow Wing.

Speaking of the death of Oliver Brousseau of this county the Little Falls Herald says:

Oliver Brousseau, Sr., died at the home of his oldest son, Oliver, near Long Lake, Crow Wing county, shortly before noon Saturday, July 17th, after a brief illness, aged 75 years. Mr. Brousseau was visiting with his son at the time of his death, having gone to Long Lake from Oak Ridge, where he has been living of late years with his son Frank, about three weeks ago. Saturday morning he said he had passed a sleepless night, and after trying to sleep in an arm chair, returned to bed, where he was found by Mrs. Brousseau dying. Oliver Brousseau was a native of Canada and came to Morrison county in 1858. He lived on a farm north of Little Falls for many years. This farm he afterward traded for a farm in Oak Ridge, near Gravelville.

Mr. Brousseau leaves four sons and four daughters. He was thoroughly honest and in his long residence in the country made many and sincere friends. He was well liked by all who knew him. The funeral took place Monday morning from the Catholic church at Belle Prairie and the remains were laid to rest in the cemetery near the church.

The Nashville Students and Wright's Colored Comedy Company.

The above named excellent colored attraction will arrive here on Saturday, July 24th, in their own, special car, and will appear at Sleeper opera house Saturday night. James Crosby and Gordon Collins are without doubt great colored comedians. Ida Lee Wright is the only colored lady serpent dancer in the country. The singing is very fine, both male and female voices. Harry and Edna Gilman, sketch artists, John Stewart, slack wire performer, and Madam Anna Stewart, queen of song, are all very good. In fact the performers are all artists in their respective lines.

Priests have been reduced to mid-summer rates, only 35 and 50 cents for reserved seats, 25 cents for general admission and 25 cents for gallery. Reserved seat sale now open at Johnson's Pharmacy, formerly known as E. F. Atwood's drug store.

The following from the Tribune of Jefferson City, Mo., is a sample of what the newspapers say about this attraction:

The Nashville Students closed their engagement of two nights at Lohman's opera house last night. This is one of the best companies of the kind that ever came to Jefferson City. Music is the forte of the company, and the two performances were full of it, and of a most pleasing and tuneful kind. The company also carries a splendid band and orchestra.

Look out for the great band parade at noon.

Pitcher Phyle Injured.

Billy Phyle the St. Paul base ball player, and who is well known in Brainerd, was badly injured while running bases on Sunday last. The Press says:

Dr. Nippert, who was called to attend Phyle after his injury, says that the pitcher suffered a very severe dislocation of the foot and that some of the ligaments in the ankle are torn. A plaster cast was put on the foot as soon as Phyle could be removed to the International hotel. It is Dr. Nippert's opinion that it will be at least two months before a recovery may be expected, which, of course, means that Phyle will not play again this season.
